Personal Profile

During my Master's Degree in Computer Science at Northumbria University, I developed a keen interest in web development. I am committed to constantly enhancing my knowledge and staying updated with the latest advancements in this field. With a solid background in computer science, I possess the ability to design visually appealing and user-friendly web applications. Additionally, my proficiency in organising and problem-solving enables me to prioritize user experience effectively.

Education & Qualifications

Northumbria University   *2022-2024*
Master's Degree in Computer Science with advanced practice

- **Modules included**: Web deployment and Development, Systems Analysis and Design with UML, Databases Modelling, Computer Networks & Operating System, and Object-Oriented Programming (OOP).

- VISUAL STUDIO CODE, NOTEPAD++, ECLIPSE, GITHUB, GIT BASH, PHPMYADMIN, FILEZILLA, XAMPP, MYSQL WORKBENCH, BOOTSTRAP, FIGMA

Relevant Work Experience

Haikase.Ai, *Freelance Web Developer*   *Sep 2023-Present*

- Developing Client- Relation Management (CRM) skill, I was able to explain the code structure to the client, when the client is not technical.
- Creating a project plan help me to improve time-management skill, ensuring timely project delivery to the client.
- Utilising decision-making help me to reach the client requriment and I was able to resolve the code issues effectively by utilising problem-solving skill.

Project Manager, Communication Lead, and Full-Stack Developer   *Jan 2023-May 2023*
Northumbria University - Internship

- Developed Team-Management and Client-Relation Management (CRM) skills by handling a group of five and being able to schedule, and manage meetings with the team as well as client.
- Created a power point and technical manual for the client helped me to improve the organising skill and was able to handle the Microsoft Office tools well during the clients meeting .
- Maintained high standards-clients satisfaction outcomes, recived a mail from the cleint expressed the satisfaction regarding the project, recognized by management and honored with a certification of recognition.

Projects

Haikase.Ai Full-Stack Website, *Freelance Web developer*   *Sept 2023-Present*

- The objective of the project is to create a responsive full-stack website for an artificial intelligence consultant start-up company.
- The client is required to have a website and the content of the website needs to be changed by themselves with an admin login.
- Utilising web technologies and IDE such as HTML, CSS, PHP, MySQL, Visual Studio, FileZilla, PHP My admin helps to improve the construction of the website.

Therapeutic Life Story Work Support, *Northumbria University*   *Jan 2023-May 2023*

- Collaborated with a dynamic team of five members, actively engaging in a significant project. Our primary goal revolved around developing a therapist's website that is both user-friendly and responsive.
- The client necessitated a website that allows them to modify its content through an admin login.
- Employed a range of web technologies and IDEs, including HTML, CSS, JavaScript, PHP, MySQL, and Visual Studio, to construct the website.

Happy Travels, *Northumbria University*   *Sept 2022-Dec 2022*

- As part of my university module assignment. The task for the assignment is to build a website related to the travel firm. Third-party frameworks are restricted to use in the assignment.
- This allowed me to emphasise proficiency in foundational web technologies.
- Utilised web technologies and IDE (HTML, CSS, PHP, MySQL, Visual Studio, FileZilla, PHP My admin) to build the website.
- Created Effortless navigation and reservation processes underscore the website's user-friendly design. Designed security measures, such as hashed logins and a password recovery tool, enhance user account security by securely storing information in the database.

Interests and Activities

Actively engaged in various events as a member of Northumbria University's Computing Society. Additionally, my role as a student representative at the university has greatly enhanced my leadership and communication abilities. Apart from my academic pursuits, I also enjoy indulging in non-academic activities such as traveling, reading books, and listening to music.
